## TRANSPORT & SHIPPING

## Road Haulage

Ferguson Transport & Shipping provides a comprehensive range of distribution services and takes pride in delivering high quality logistics with experienced drivers, transport management and planners, achieving excellent company safety records with SQAS, FIAS and FISA accreditation. The transport department operates a modern fleet of vehicles which includes some of the latest Euro 6 trucks running on the most stringent European emission standards to date (2014).

Ferguson road haulage stretches the length and breadth of the UK daily to supply:

- General, specialised ADR, forestry and aquaculture haulage;
- Curtain siders, flats and pin trailers, swap bodies and skeletal trailers;
- Lifting gear - a side-lift container lifter, one of only four in Scotland;
- Plant and machinery movements;
- Warehousing;
- Stevedoring and craneage; and
- Port handling.

**Each contract is tailored to meet individual customer requirements. Return loads are available for flats and curtains to Scotland, England and Wales.**

**Available 365 days a year, long term contract or short term ad hoc business - no order too large or too small.**

**LOGISTIC SOLUTIONS, SUCCESSFUL WITH PARTNERS**

<b>Rail</b>	Integrated rail transport has been a logistic solution for Ferguson Transport & Shipping to take freight off the roads helping to increase road safety, decrease congestion and reduce CO <sub>2</sub> emissions. The liveried fleet of rail swap bodies carry a variety of products such as aluminium and sawn timber from Fort William to Grangemouth by road, and then on by train to the south of England.
<b>Sea</b>	The vessels operate from the company's port facilities at Kishorn and Mallaig, focussing work on the west coast of Scotland including the Western and Northern Isles. Ferguson Shipping has its own marine management staff with vast experience in the marine industry, including a Designated Person Ashore and marine technical staff for inspection, maintenance and repairs of the shipping fleet. All vessels are available for private hire, with long-term, short-term and one off contracts all welcome.
<b>Maintenance Facility</b>	<p>The custom built Maintenance Facility in Corpach includes a VOSA Test Lane, Tacho Centre, and four bays with autolube, oil monitoring, autogrease, air jacks, brake roller tester, beam tester and wheel shaker. It also includes a paint/panel beating shop as well as a welding and fabrication shop. The facilities allow Ferguson Transport &amp; Shipping to carry out all maintenance in-house for trucks, trailers and plant machinery as well as maintenance and repairs for clients. MOT testing is carried out by VOSA in one of the bays one day per week, meaning that vehicles which in the past would have had to travel to Inverness or Glasgow for calibration or inspection can now have this service carried out in the local area.</p> <p><b>Services provided in the Maintenance Facility include:</b></p> <ul style="list-style-type: none"> <li>• Pre-MOT inspections</li> <li>• Tachograph calibrations</li> <li>• Computer diagnostics</li> <li>• Winter checks</li> <li>• Cab/chassis/engine steam clean</li> <li>• Commercial steam cleaning</li> <li>• Breakdown assistance</li> <li>• ABS and EBS systems</li> <li>• Repair/supply hydraulic pipes</li> <li>• Training facilities</li> </ul>
<b>Training</b>	Ferguson Transport and Shipping has an on-site training facility for up to 16 delegates, with PowerPoint presentation equipment. Both in-house and external training is carried out and where possible, trainers are brought on-site. Training ranges from management training, forklift, driver CPC, and technician and plant training. The company is also committed to training and providing skilled jobs for young people in the local area with several apprenticeship schemes in place throughout the company.
<b>Storage &amp; Warehousing</b>	<p>Storage and warehousing facilities available and operating in the following areas: pallet dockside warehouse, Kishorn; pallet warehouse rail side, Fort William; pallet warehouse, Spean Bridge; and pallet warehouse, Annat, Corpach.</p> <ul style="list-style-type: none"> <li>• Stocking for clients in readiness for delivery direct to their customers;</li> <li>• Distribution of full and part load picked from customer stock and stored in warehousing;</li> <li>• Picking lists, stock rotation, historical data and pallet tracking with administration to suit customer requirements; and</li> <li>• Open floor space with general storage capacity and equipment for handling large and heavy items.</li> </ul>
